ELECTION OF SPECIES

1. Applicant's election without traverse of Group I, claims 1-29, 67-79, 94-103 and 105-121 filed on July 13, 2004 is acknowledged.

2. Upon further consideration and review the following election of species is set forth:

This application contains claims directed to the following patentably distinct species of the claimed invention. Claims 1-29, 67-79, 94-103 and 105-121 are directed to a composition comprising at least one surfactant and at least one cell membrane altering compound. Applicant is asked to elect one species of surfactant (see claims 2, 4-8, 94 and 96-100) and one species of cell membrane altering compound (see claims 12-19 and 105-111) to be examined in the claimed composition.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1645

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1645
